

We have a report of individuals soliciting in the Gardens area. They are selling bug spray and ask to spray a little on your hands. Then they tell you to take your rings off and wash your hands. When you get back they are gone and so is your jewelry. Remember, don't open the door to solicitors if you don't want to become a victim. If the solicitors refuse to leave, call 911. Seven people fell victim to these crooks.
